Testimonial for Add Connections LLC

We wanted to take some time to express our gratitude for the work that Add Connections LLC has done for us.

Your technicians did a wonderful job handling our low current project through a very hectic schedule over the weekend to make sure that all is completed on deadline.

The job was detailed with technical drawings and specifications with timely updates and site progress.

As you know, these types of projects require a substantial amount of preparation, patience and skill. The Add Connections team definitely met the challenge head-on and demonstrated their commitment to customer satisfaction throughout the entire project.

We are extremely confident using Add Connections LLC as our preferred vendor for all of our low current related and IT infrastructure projects.

Yours Sincerely

For & on behalf of Al Saraya Engineering Consultants

Sunil Lau

Managing Director
